We have been informed by Our Manufactures that the Price for 2022-23 is unpredictable due to the scarcity of parts needed for chassis and steel surcharges. Please be aware that should there be an increase in cost from our factories or an open order, it would be necessary to pass that factory cost to the order. We will do our utmost to avoid these increases as much as possible.

Important Notice: The price quoted does not include re-routing of exhaust pipes, removing or relocating fuel tanks, battery boxes or air tanks, or any other chassis modifications. If any of the above is required an extra charge will be made on a time and material basis.
