Robert S. Croslin
Mayor, City of Hyattsville
4310 Gallatin Street
Hyattsville, MD 20781

February 6, 2023

Dear Robert Croslin,

I am pleased to inform you that the City of Hyattsville has been approved to receive up to \$22,500 from the Maryland Smart Energy Communities (MSEC) FY2023 Grant Program for the purchase of three electric vehicles (EVs) for its Police Department.

The grant funding described above is conditional upon a signed and executed grant agreement between MEA and the City of Hyattsville detailing the proposed energy measures identified for MSEC funding, as well as demonstrating the Grantee's commitment to meeting the goals and requirements of the Maryland Smart Energy Communities Grant Program.

The MSEC Program Manager, Briggs Cunningham, will be serving as the grant manager for this program. Briggs can be reached via email at MSEC.MEA@maryland.gov. He will be in touch with you shortly to formalize your grant agreement.

I congratulate you and your community on completing previous energy efficiency and transportation fuel-reduction efforts, and on the proposal submission that merited this award.

Sincerely,

DocuSigned by:
