

PETITION TO THE CITY OF HYATTSVILLE

Petition Summary & Background Information:

(Please print, attach additional sheets as needed)

We are requesting traffic calming devices be constructed on 43rd Street between Oliver Street and Oglethorpe Street. Specifically, we request speed humps be constructed near the crest of the hill on both sides. There are many young children in this area and the drivers speed down the hill.

There have been a number of instances these drivers are not paying attention to pedestrians with a limited view and we worry for the safety of the children playing in the area.
