I am an environmental sociologist by training and have been conducting social research on environmental topics for over twenty years. I have always enjoyed learning about plants and animals, and the habitats upon which they depend. I am an amateur naturalist and landscape my yard in Hyattsville to benefit urban wildlife. I believe that people have an obligation to steward natural resources, ensure a clean environment, and strive to keep ecosystems intact. I believe that nature is right outside our front door and we have a wonderful opportunity to enjoy and care for it. I have been impressed by Hyattsville's effort to manage its trees, used native plantings, etc. For all of these reasons, I choose to apply to the Hyattsville Environment Committee.
