Which Boards would you like to apply for?

Educational Facilities Task Force: Submitted

Referred By:

Please provide a brief background statement including why you want to serve on a committee. This statement may be posted on the City's website.

I have lived in Hyattsville for 3 years, during this time I have loved getting to know the people in my neighborhood and larger community. I have been looking for a volunteer opportunity that would get me involved in the communities where I live. I am an educator and have spent 20+ year working in schools. Over those year I have been involved in planning and input of design ideas for modernizing the schools I have worked in locally. I am passionate about advocating for students environments, the learning environment is essential to student growth and teacher effectiveness. I am hoping my knowledge and experience could be helpful to this committee.

The Educational Facilities Task Force will make recommendations to the City Council to ensure the County addresses local school infrastructure needs. We are specifically seeking individuals with expertise in one or more of the following areas: Hyattsville area public school operational needs and landscape, architecture, land use/acquisition, urban planning, and PGCPs policies and procedures. Please describe how your skills and experience will assist the Task Force in making these recommendations.

I am a local educator, and have a first hand knowledge of how school environments can support student learning and teacher effectiveness. I have worked in schools that have been through the modernization process in recent years. I understand how schools operate and challenges school face during day to day operations. I am hoping my knowledge and education experience and support the needs of the task force.
